

We Are The Singularity

A Documentary Film by Chris Williamson

FILM PROPOSAL

Transhumanism and The Technological Singularity are not only ideas, but modern social movements that have the potential for profound effects on humanity.

Who are Transhumanists and Singularitarians?

**MAN IS STILL THE MOST
EXTRAORDINARY COMPUTER OF ALL.**

-JOHN F. KENNEDY

We Are The Singularity will take the audience on a journey covering the most exciting and controversial personalities involved and the emerging technologies they are working to create.

The goal is to cover the goal of the movements, why those involved are doing what they do, and how it affects others.

We are going to find out where the current state of technology stands in relation to those goals, and lastly, what does the future hold?

An important aspect of *We Are The Singularity* is that a broad spectrum of voices are heard. We will combine that exposition with cutting-edge graphics and animations to further illustrate topics.

Shooting in HD and edited on world-class workstations, we look forward to creating a truly professional documentary that will be looked to as a guiding light in the mystery of the future.

TRANSHUMANISM

AN INTERNATIONAL INTELLECTUAL AND CULTURAL MOVEMENT SUPPORTING THE USE OF SCIENCE AND TECHNOLOGY TO IMPROVE HUMAN MENTAL AND PHYSICAL CHARACTERISTICS AND CAPACITIES.

THE TECHNOLOGICAL SINGULARITY

A THEORETICAL FUTURE POINT OF UNPRECEDENTED TECHNOLOGICAL PROGRESS TYPICALLY ASSOCIATED WITH ADVANCEMENTS IN COMPUTER HARDWARE OR THE ABILITY OF MACHINES TO IMPROVE THEMSELVES USING ARTIFICIAL INTELLIGENCE.

A CUTTING-EDGE FUNDING STRATEGY FOR A CUTTING-EDGE FEATURE-FILM PROJECT:

The producers have already invested tens of thousands of dollars in equipment and are ready to take on the challenge of producing such a high profile project but we need help getting there.

The way most films are made you have a few producers that invest a ton of money each to fund a film then pray for a return.

We are asking a lot of people to help fund a small portion of

getting the film made.

We believe that anyone interested in Emerging Technologies would want to support the project and the small donation asked for is so small anyone can participate!

Will it work? We think so. Not many people have \$25,000 to throw around but everyone's got \$25! It's such a small donation for such a great reward we feel that people will really enjoy participating.

Plus, you get listed in the credits, receive a copy of the DVD, and receive regular production updates from the filmmaker. Participants also get invited to an exclusive 'virtual cafe' for networking. You literally get to watch the project come to life and participate!
